

We are excited to announce . . .

The AROMATIC LIFESTYLE TRUessence TRAINING with ALEXANDRIA BRIGHTON

ALEXANDRIA'S STELLAR WORLD-WIDE REPUTATION AS A MASTER AROMATHERAPIST, EXPERT BLENDER, AND MASTER aromatherapy educator with 20+ years of experience in the essential oil world brings a powerful level of qualified expertise to ForeverGreen distributors and customers. Many of her original essential oil blends, long-time favorites, are still being sold by companies who contracted her expert blending skills over the years. Alexandria brings her body of work – much of which has not been previously released – 'home' to ForeverGreen, to share her life's passion and training with like-minded hearts.

Since entering the world of aromatherapy, Alexandria has emerged as one of the foremost authorities on this ancient healing art. An internationally-certified aromatherapist, formulator, and educator of essential oils, she has formulated unique therapeutic blends for numerous companies in the United States and Canada, creating everything from medicinal blends to cosmetic blends to "angel" blends.

As a result of Alexandria's commitment to providing only the highest-quality therapeutic-grade essential oils, she has, over the years, forged long-standing personal relationships with some of the finest and most ethical distillers around the world. She has traveled to India and the Himalayas in search of oils produced by small distillers whose dedication and artistry are such that their precious oils will never see mass commercial markets. Her relationships with both national and international medical aromatherapists and researchers provide her the most up-to-date information on both the use and safety of essential oils for aromatherapy.

Alexandria's deeply intuitive nature, spiritual insights, wisdom, and ability to process and integrate the education and information she gathers, has set her apart as a cutting-edge educator. Over the past 20+ years, Alexandria has taught countless workshops, training thousands in the art and science of aromatherapy, natural health, and Feng Shui. Her dedication to staying current on the latest research and advances in this ancient field is part of what sets her apart as a Master Educator in the world of aromatherapy. Additionally, her selfless approach to life and to teaching, along with her willingness to share her own unique recipes and suggestions for using essential oils in every aspect of everyday life, including her methodology and instruction on their proper use, have endeared her in the hearts of seminar attendees across the globe.
